

ABSTRACT OF THE DISCLOSURE

A flower pot cover constructed of a material for providing a decorative cover for an item, such as a floral grouping. The flower pot cover comprises a base portion and a skirt portion. The base portion has an upper end, a lower end, a bottom having a first thickness and a continuous sidewall extending generally between the upper and lower ends of the base portion. The skirt portion is positioned circumferentially about the upper end of the base portion and extends a distance therefrom. The skirt portion is substantially flexible and has a third thickness which is less than the first thickness of the bottom of the base portion. The base portion and the skirt portion cooperate to provide the flower pot cover with a shape sustaining configuration.
